Industry recognised as the benchmark in toilet suite innovation
-  **Proven XPV technology**
For even greater flushing power

⁺ Compared to 11 litre single flush toilet suite.

^{*} Conditions apply. The ToiletSmart program is only available to ACT home owners for residential properties connected to ACTEW Corporation's water supply network. The ToiletSmart – Residential program and rebate is applicable for the replacement of single flush toilet suites and old dual flush toilet suites with a cistern capacity greater than 6/3 litres per flush. This program replaces the complete toilet suite (combined cistern and pan); there is no option to replace the cistern only. For Program pricing refer to the current ToiletSmart brochure. Prices are based on a fully installed price after the ACT Government ToiletSmart program rebate of \$100 per toilet suite has been applied. Non-standard installations may incur additional charges. Replacement of toilet suites with a skew pan or vented S or P pan will incur an additional cost. All ToiletSmart program installations in rental properties must be arranged by the property owner or their managing agent. Payment in full will be required on completion of installation. Cash, cheque or credit cards are accepted (note a credit card surcharge may apply). A maximum of two rebates may be claimed per metered premises. The ToiletSmart Plus Program Terms and Conditions are to be read in conjunction with the ToiletSmart – Residential Program Terms and Conditions. The ToiletSmart Plus service is only available at the time of the installation of a toilet through the ToiletSmart program. All tap repairs will be carried out at the discretion of the plumber. The installation of all products included in the ToiletSmart Plus program is at the discretion of the Program plumber. The ToiletSmart Plus program includes the advertised services and products only. For comprehensive terms and conditions and further information on the ToiletSmart and ToiletSmart Plus programs please call 1300 749 794 or Canberra Connect on 13 22 81, or visit www.actsmart.act.gov.au

Prestige

- 1 Choose the toilet suite you would like installed.
- 2 Identify whether your current toilet has an 'S' or 'P' trap using the diagrams below and enter the requested information in the space provided. The plumber will need this information to check that the toilet will fit in your bathroom.

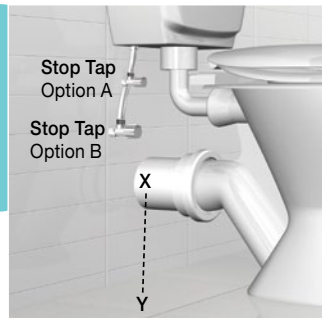

S-Trap

If your toilet has an 'S' trap measure the distance from the wall (X) to the centre of the toilet drain (Y).

Enter measurement here

P-Trap

If your toilet has a 'P' trap measure the distance from the floor (X) to the centre of the toilet drain (Y).

Enter measurement here

Where is your stop tap located, left or right of the cistern, level with the toilet seat (Option A), below the toilet seat (Option B) or above these levels?

Enter location here

- 3 Decide if you would like to participate in the ToiletSmart Plus option. See Program details on the next page.
- 4 Call **1300 749 794** to arrange an installation.

ToiletSmart Plus provides a **FREE** home water audit and some additional low cost water saving options*. These are available only at the time the plumber is installing your new toilet suite. Please consider the options below before making your appointment.
